

4. Requirement Analysis Phase

Date	02 November 2025
NM_ID	E8134801B1EE0ABB927495C424A84A47
Project Name	Educational Organisation Using ServiceNow

Purpose:

List all the software, hardware, and functional requirements.

Include:

Functional Requirements:

- Users should be able to submit admission forms.
- Grades must be selected from dropdown.
- Users can view all submitted admissions under the “All” module.
- Records should store student details and contact info.

Non-Functional Requirements:

- Must be easy to use and should be accessible through a web browser.
- Should be accessible through a web browser.
- Should handle multiple submissions without error.

Software Requirements:

- Platform: ServiceNow
- Environment: Developer Instance
- Browser: Google Chrome

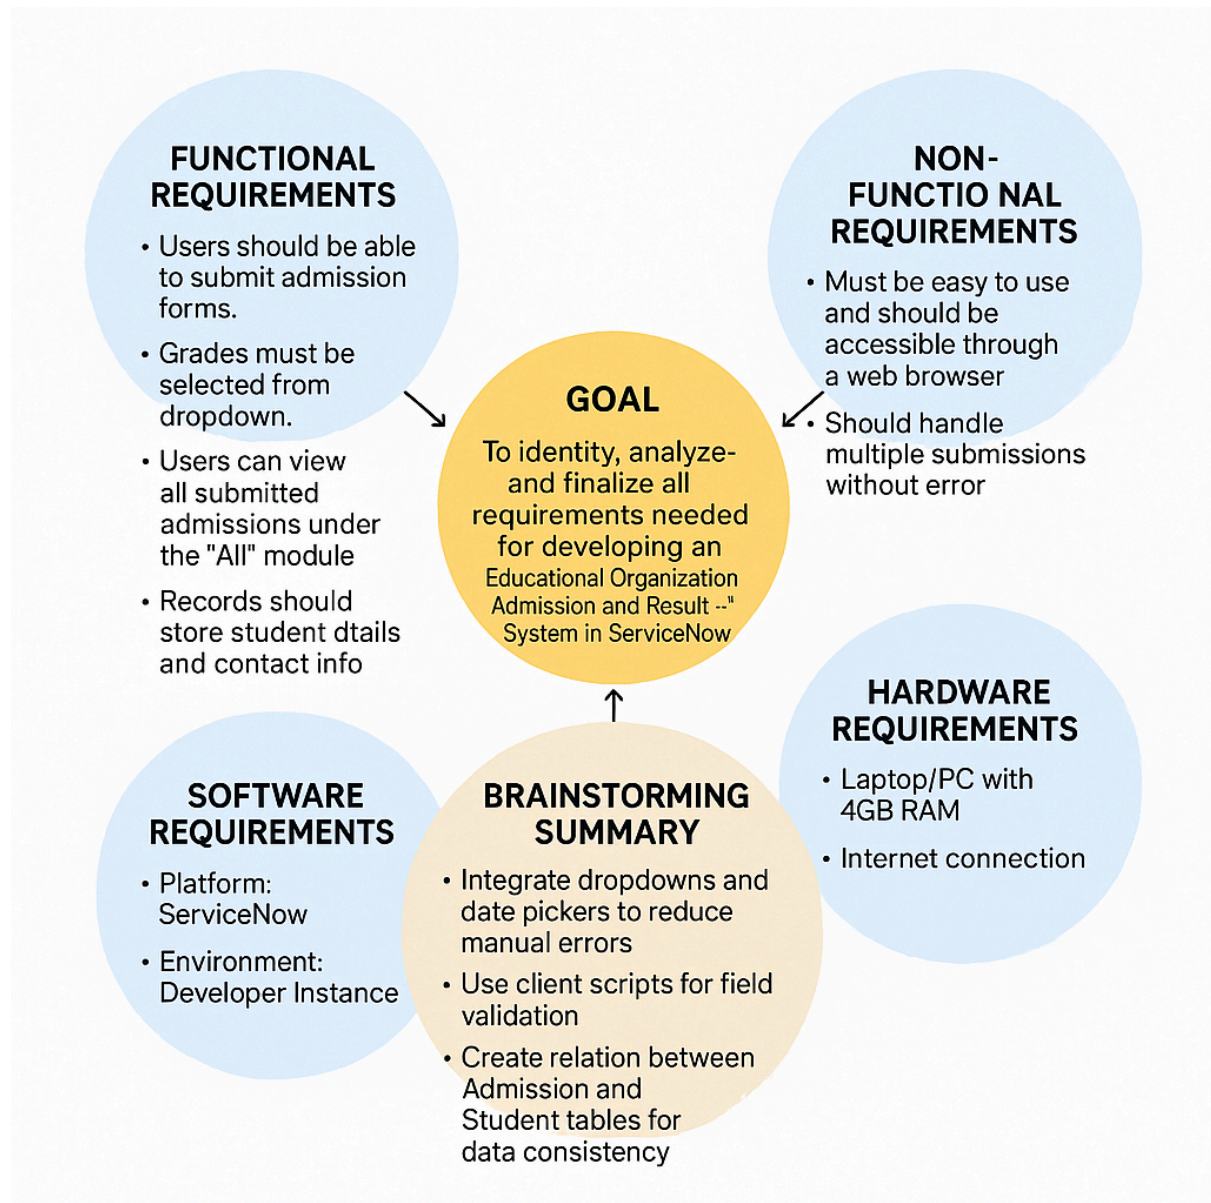

Hardware Requirements:

- Laptop/PC with 4GB RAM
- Internet connection

Brainstorming Chart :

Conclusion :

The requirement analysis phase ensured all system needs—both functional and non-functional—were clearly identified. It confirmed that the ServiceNow environment, tools, and user needs were aligned to achieve the project's objectives efficiently.
